WHAT IS A SUNSTICK?

Supergoop! steps up the total sun protection in a take-along, easy-to-apply stick that protects small spots—including the eye area, lips, nose, earlobes, hands, and scars—from aging and burning UVA and UVB rays.

SKIN TYPES

Ideal for all skin types, particularly sensitive skin.

KEY INGREDIENTS	BENEFITS
TITANIUM DIOXIDE AND OCTINOXATE	Provides high-level UV filter to block both UVA and UVB rays
PARSOL SLX	Boosts UVA protection to meet new EU recommendations
AVOCADO OIL	Highly moisturizing
TOCOPHEROL	Antioxidant-rich extract to protect from free radicals triggered by sunlight, tobacco smoke, and smog

ADDITIONAL BENEFITS

- Designed for easy applications and reapplications, this on-the-go SPF essential provides oil-free UV protection and prevents photoaging
- Full spectrum UV protection

PRODUCT USAGE

Apply liberally before sun exposure and as needed. Reapply every 40 minutes or after towel-drying, swimming, or perspiring.

SUPERGOOP! SUN TIP

Overcast weather still calls for sunscreen. Keep SPF-packed Supergoop! Sunsticks and Sunscreen Swipes handy for quick and easy touch-ups.
