WHAT IS SAVE FACE A.M. MOISTURIZER?

The essential first step in a complete morning skincare regimen, Save Face A.M. is a two-in-one sunscreen-moisturizer that protects against sun and environmental damage in a shine-free, weightless lotion.

SKIN TYPES

Ideal for all skin types, four months of age and up.

KEY INGREDIENTS	BENEFITS
PARSOL	Provides protection from long wavelength UVA rays and boosts UV protection to meet EU recommendations for high-protection sunscreen
BLUEBERRY EXTRACT	Supercharged antioxidant helps prevent and repair oxidative damage and assists in boosting the regenerative power of the skin's cells to improve skin's smoothness, wrinkles, texture, and elasticity
VITAMIN E	Antioxidant-rich extract to protect from free radicals triggered by sunlight, tobacco smoke, and smog

ADDITIONAL BENEFITS

- Blends beautifully into the skin without leaving a shiny or a white, chalky finish
- Airless finger pump preserves the strength of the active ingredients while allowing every last drop to be dispensed from the tube
- Very water resistant (up to 80 minutes in water)

PRODUCT USAGE

Apply every morning after cleansing. Avoid eye area.

SUPERGOOP! SUN TIP

Daily sun damage is one of the leading causes of uneven skin tone. Don't wait for a day by the pool to use broad-spectrum UVA/UVB protection—apply it every morning, 365 days a year.
