WHAT ARE SUNSCREEN SWIPES?

Formulated to calm, soothe, and protect sensitive skin, these soft, pre-moistened, paraben-free, water-resistant wipes deliver powerful SPF 30 UV protection for the face and body.

SKIN TYPES

SPF 30 Sunscreen Swipes are ideal for all skin types, especially sensitive skin.

KEY INGREDIENTS	BENEFITS
ZINC OXIDE	Anti-irritating powerful UV protection
GREEN TEA	Protects from lipid peroxide—the free radical triggered by sunlight—and tobacco smoke and smog; also reduces irritation and redness
VITAMIN E	Softens skin and protects from ozone and pollution damage

ADDITIONAL BENEFITS

- Convenient for frequent and mess-free reapplications
- Leaves skin protected and soft without a residue or greasy feeling
- Helps to gently remove sweat and sand while reinforcing the primary layer of UV protection

PRODUCT USAGE

Gently open resealable pouch, unfold swipe, and sweep over face and body. For continuous, water-resistant protection, reapply every 40 minutes after swimming or exercise.

SUPERGOOP! SUN TIP

For daily UV protection, tuck Sunscreen Swipes into your purse, your children's backpacks, and in the glove compartment of your car for on-the-go coverage.
